

# DOCKLEVELER PIT FORMING TUB KITS

---

Best Equipment ensures a perfect pit with every tub kit. Our kits are heavy duty, squared, fabricated and welded for a seamless installation. They are designed with a fully welded curb angle system to provide tight dimensional control.

## Other benefits include:

---

- Braced to retain correct dimensions during installation
- Ensures properly leveled pit for dock installation
- Provides significant efficiencies for field labor savings
- Reduces costly mistakes and errors on site
- Ships to job site ready to pour ***with no assembly***
- Can quick ship Front curb angles for timely concrete pour
- Ideal for New Construction and Retro-fit
